

AASHTO Subcommittee on Materials
August, 2004

Resolution on AASHTO assisting in filling a petition
for a waiver from the revision of Part 15 of the FCC
rules regarding Ultra-Wide Band Transmission
Systems to purchase and operate additional Ground
Penetrating Radar Systems

Whereas the Subcommittee on Materials has always been a leader in developing and maintaining new technology, and

Whereas the Subcommittee on Materials continues to support improving those new technologies and deploying them on a national scale, and

Whereas the Subcommittee on Materials constantly strives to improve quality, and

Whereas the Subcommittee on Materials continues to be a leader by always looking to the future, and

Whereas the Subcommittee on Materials supports the use of Ground Penetrating Radar technology thru the AASHTO TIG to discover and develop new and superior technologies for pavement evaluation and management, therefore

Be it resolved that the Subcommittee on Materials supports AASHTO on assisting in filling a petition for a waiver from the revision of Part 15 of the FCC rules regarding Ultra-wide Band Transmission Systems, published in April 2002 in ET Docket 98-153, to purchase and operate additional Ground Penetrating Radar Systems.
